Daily Maintenance

Daily

1 **Empty drip tray** and coffee grounds container

2 **Refill beans** if low

3 **Fill water reservoir** with fresh water

4 **Wipe exterior** with soft damp cloth

Steam Pipe Cleaning

After Each Use

Rinse the steam pipe after every use to prevent milk residue buildup.

- 1 Fill vessel with clear water, immerse steam pipe tip
- 2 Press  button, wait for  to illuminate
- 3 Turn valve clockwise for 5 seconds, then close

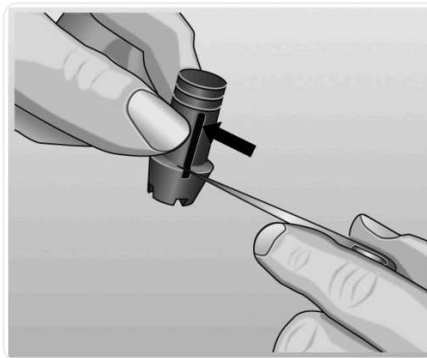

Deep Clean (Weekly)

F

G

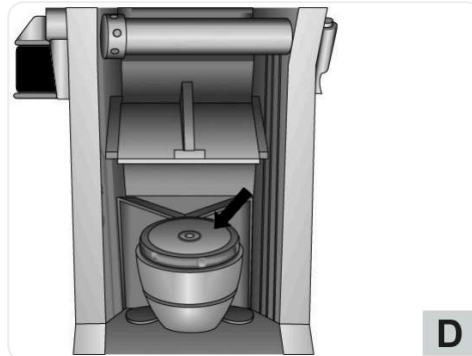

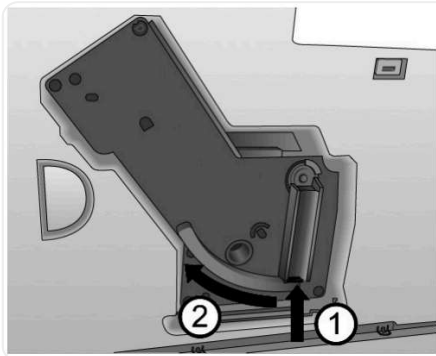

H

- 1 **Twist off** steam pipe (turn in arrow direction)
- 2 **Pull nozzle** out of steam pipe
- 3 **Clean nozzle** with pointed object or brush
- 4 **Rinse all parts** with water, reassemble

Brewing Unit Cleaning

Weekly

Switch off appliance and unplug before cleaning!

- 1 **Remove cover** (pull right side panel off)
- 2 **Press red button** on handle, turn clockwise, pull out
- 3 **Rinse thoroughly** with clear water on all sides
- 4 **Let dry**, remove coffee residues from machine
- 5 **Reinsert** brewing unit, turn counterclockwise until locked

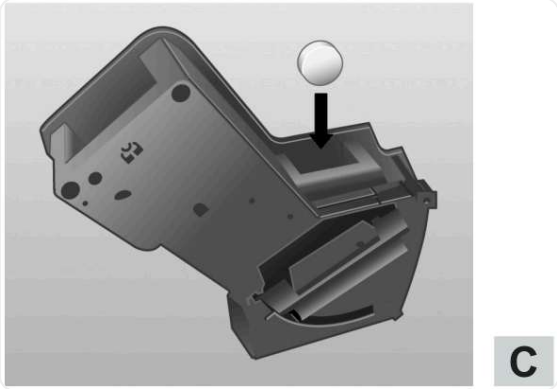

Cleaning Program

Every 2 months / 200 cups

~15 min

Required: Melitta Cleaning Tabs

Do not interrupt the program.

- 1 **Switch off**, fill water reservoir to MAX
- 2 Hold   +  for 2 sec →  flashes
- 3 **Empty drip tray**, reinsert without grounds container
- 4 When  lights: **remove brewing unit**, insert cleaning tab, reinstall

- 5 **Refill water** to MAX, press  to continue
- 6 When complete: **empty and reinsert** drip tray + grounds container

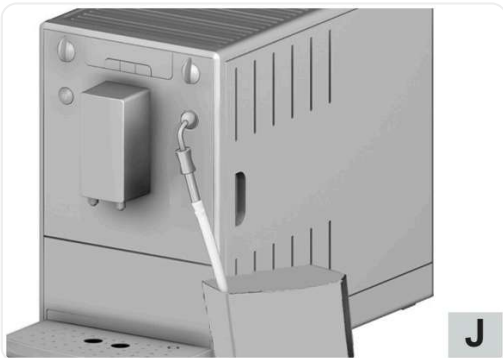

Descaling Program

Every 3 months

~30 min

Required: Melitta ANTI CALC descaler

Descaling agent can cause skin irritation. Follow safety instructions on packaging.

- 1 **Attach hose** to steam pipe, place in grounds container
- 2 **Remove water filter** if installed
- 3 Hold ☕ + ① for 3 sec → ☕ flashes
- 4 **Empty water reservoir**, add 100ml descaler + fill to MAX (Melitta ANTI CALC)
- 5 Press ☕ to start (~15 min)
- 6 When ☕ lights: **turn valve clockwise** until stop (~10 min)
- 7 **Empty all containers**, rinse reservoir, fill with fresh water
- 8 Press ☕ for final rinse, **close valve** when ☕ lights
- 9 When ① lights: **done!** Reinstall water filter if used

Water Filter Replacement

Every 2 months

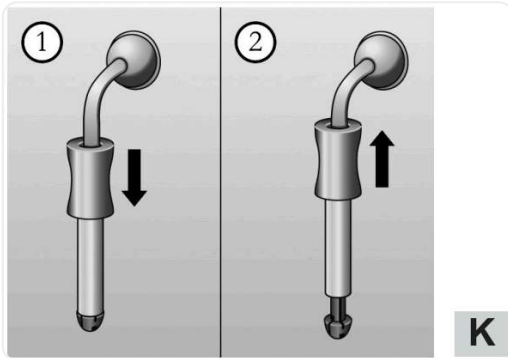

Required: Melitta Claris Water Filter

- ① **Soak new filter** in glass of water for several minutes
- ② **Switch off**, hold  +  for 3 sec
- ③ **Empty drip tray**, reinsert without grounds container
- ④ **Remove & empty** water reservoir, screw filter onto thread at bottom
- ⑤ **Fill reservoir** to MAX, reinsert
- ⑥ **Place container** under steam pipe, turn valve clockwise until water flows
- ⑦ When  lights: **close valve** → Ready!

Water may be cloudy during first rinse (activated carbon). This is normal.

Steam Pipe Positions

Position 1 (Down)

For frothing milk

Position 2 (Up)

For heating milk / hot
water
